How can I access my tickets?

Open the FIFA Club World Cup 2025™ App and sign-in/sign-up using your email address:
nadine.test@mailinator.com

To access your tickets, click on the "Home" tab at the bottom of your screen, then click on [My Tickets] button and select the "FIFA Wallet" option. To learn your way through the mobile app, send tickets to your guests and access the stadium on a match day, among other functionalities please access [here](#).

The QR code granting you access to the stadium will only appear a few hours before the gates opening time on the match day.

Sharing is caring! Make stadium entry easier for you and your guests.

If you have more than one ticket for a given match, we strongly recommend you send your tickets to your guest(s) as soon as possible. If you do not send your tickets in advance to your guests, you will need to enter the stadium all together as one group.

Use the app to send tickets by clicking on the [Send your ticket(s)] button and entering your guest's email information.

If your ticket can be transferred and/or resold, FIFA Ticketing will provide further information and instructions about how to do so at a later date. You can also consult the Terms and Conditions applicable to your ticket for further information whether your ticket is able to be transferred and/or resold.

Your guest(s) can no longer attend the match?

- If you have already shared your ticket(s) with your guest(s), they will need to return the ticket(s) before you can share again to a new guest(s). They just need to click on the [Return ticket] button and follow the steps indicated by the ticketing app.
- Once the tickets are back on your mobile device you can either keep the ticket(s) or [Send your ticket(s)] to new guest(s).
