CROSSBAR

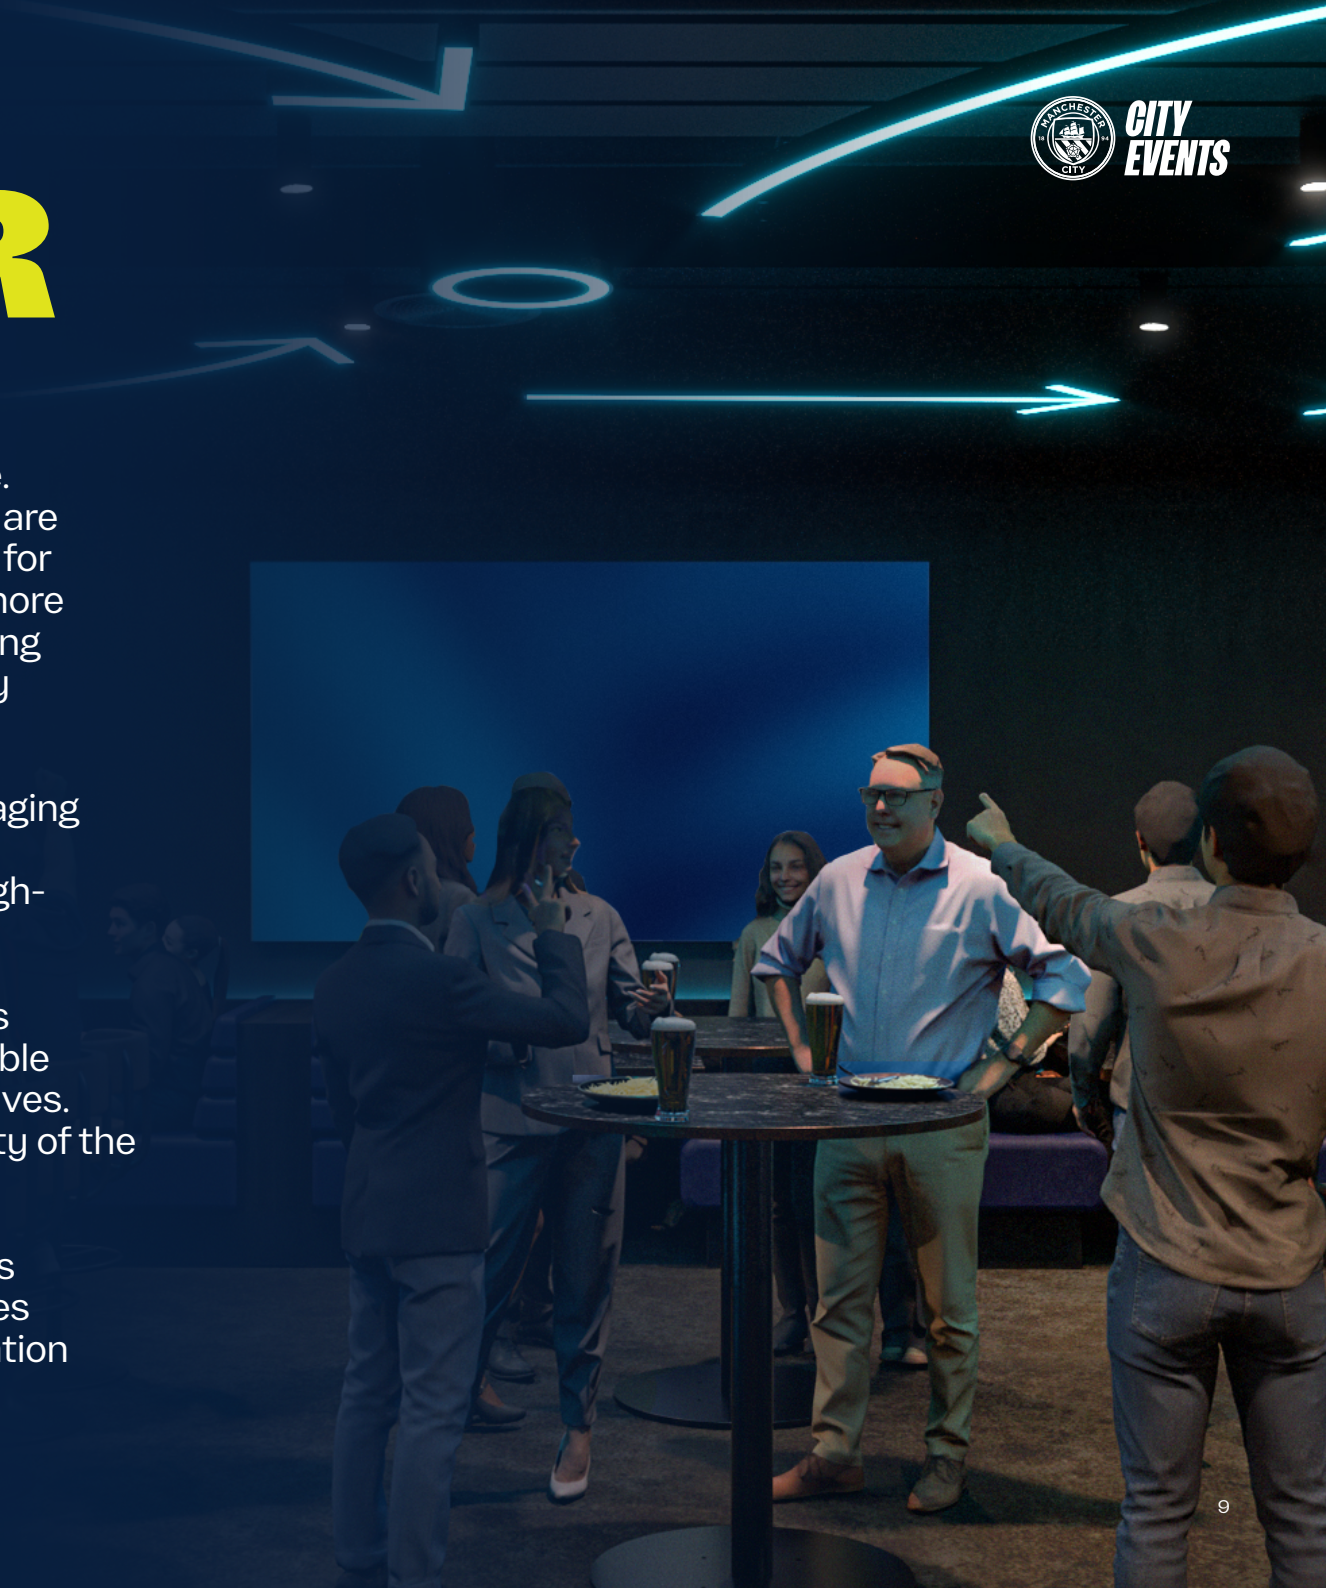

A Space that Changes the Conversation

Cross Bar is a contemporary, characterful space. It's where introductions turn into dialogue, ideas are developed and conversations deepen. Designed for networking receptions, breakout sessions and more intimate corporate gatherings, it provides a setting that feels creative and dynamic, yet comfortably conversational.

A central feature bar anchors the space, encouraging guests to gather and connect. Two theatre-style kitchens provide a focal point for dining and a high-quality catering experience.

Two adjoining areas offer natural breakout zones for workshops or smaller discussions, while flexible layouts allow the space to adapt as the day evolves. Customisable neon lighting allows the personality of the space to shift with the occasion.

It's the perfect pairing with City Hall, which offers scale and stage presence, whilst Cross Bar invites interaction - creating balance between presentation and participation, impact and connection.
