

Ready to kick off the Premier League action again with NOW TV? Here's how to get stuck in...

## How to redeem your voucher codes

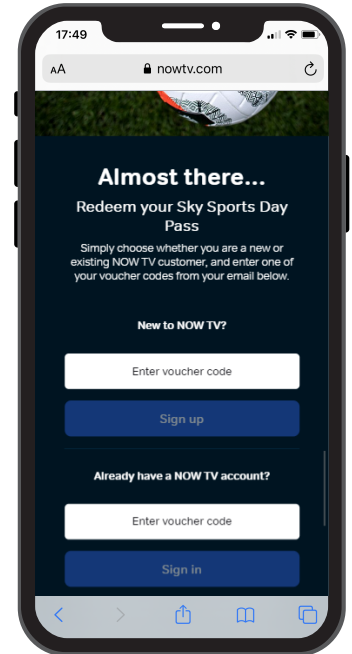

### Already got a NOW TV account?

- 1 Copy the voucher code you've been emailed and head online to <https://www.nowtv.com/eplrestart/man-city>
- 2 Paste it in the box for **existing customers**, sign in to your account and complete your order.  
(Or you can apply your code in the usual way, on your device or by signing in to My Account at [account.nowtv.com/passes](https://account.nowtv.com/passes) and hitting the 'Redeem a voucher' button.)
- 3 Your Day Pass is ready to go!

### Already got a Sky Sports Pass?

You can only have one Sky Sports Day, Week or Month Pass on your account at a time, so you'll need to wait for your existing Pass to end before you can use your voucher code.

Once you've used your first Day Pass, you can head straight to My Account to redeem your next voucher.

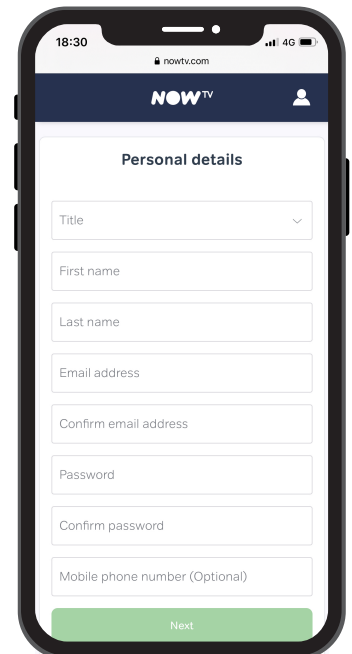

### New to NOW TV?

- 1 Copy the voucher code you've been emailed and head online to <https://www.nowtv.com/eplrestart/man-city>
- 2 Paste it in the box for **new customers**.
- 3 Enter your details, create your account and confirm your order. You'll need to add your payment details to create an account, but don't worry, you won't be charged (except for a 10p charge just to validate your details, which is refunded straight away).
- 4 Your Day Pass is ready to go!

### Redeeming your next voucher

As you can only have one Sky Sports Pass on your account at a time, you'll need to wait until you've used your first Pass before you can come back and add your next one. To do that, just sign in to My Account at [account.nowtv.com/passes](https://account.nowtv.com/passes), hit the 'Redeem a voucher' button and paste in your voucher code.

## Don't start watching too soon!

Your Sky Sports Day Pass will be activated automatically when you start watching any Sky Sports channel, and will only last for 24 hours – so make sure you don't start it too early, or it'll expire before the match is over! We recommend activating it an hour or so before kick-off, to give you time to check everything's working properly.
